

ECC Recommendation (05)06

CEPT Novice Radio Amateur Licence

October 2005

INTRODUCTION

For many years administrations and radio amateurs have had good experience with the existing CEPT Radio Amateur Licences and the arrangements in T/R 61-01. As the provisions of Recommendation T/R 61-01 allow non-CEPT administrations to join this licensing system, several countries outside CEPT have made use of it. It is now proposed that this concept be applied to CEPT Novice Radio Amateur licence as described in this Recommendation. The criteria for the corresponding CEPT Amateur Radio Novice examination are described in ERC Report 32.

ECC RECOMMENDATION (05)06 OF SEPTEMBER 2005 ON CEPT NOVICE RADIO AMATEUR LICENCE (ECC/REC/(05)06)

“The European Conference of Postal and Telecommunications Administrations,

considering

- a) that in many countries novice licences exist, none of which are included in the procedures of Recommendation T/R 61-01;
- b) that issuing of individual temporary novice guest licences is an increasing burden for administrations;
- c) that the International Amateur Radio Union (IARU) supports the simplification of procedures to obtain temporary operational privileges for foreign visitors in CEPT countries and in other countries;
- d) this Recommendation bears no relation to the import and export of amateur radio equipment, which is subject only to relevant customs regulations;
- e) despite the procedures of this Recommendation, administrations always have the right to require separate bilateral agreements when recognising the radio amateur licences issued by foreign administrations.

recommends

1. that CEPT member administrations recognise the principle of a CEPT Novice Radio Amateur Licence issued under the conditions specified in ANNEX 1: and ANNEX 2:, on which the administrations of the countries visited will not levy administrative charges or spectrum fees;

that administrations, not being members of CEPT, accepting the provisions of this Recommendation, may apply for participation in accordance with the conditions laid down in ANNEX 3: and ANNEX 4:.”

Note:

Please check the Office documentation database (<http://www.ecodocdb.dk>) for the up to date position on the implementation of this and other ECC Recommendations.

ANNEX 1: GENERAL CONDITIONS FOR THE ISSUE OF THE "CEPT NOVICE RADIO AMATEUR LICENCE"

1 GENERAL PROVISIONS RELATING TO "CEPT NOVICE RADIO AMATEUR LICENCE"

The "CEPT Novice Radio Amateur Licence" is hereinafter also referred to as "CEPT Novice Licence" and has a lower standard than the CEPT Radio Amateur Licence.

The CEPT Novice Licence can be included in the national novice licence or be a special document issued by the same authority, and will be drafted in the national language and in German, English and French; it will be valid for non-residents only, for the duration of their temporary stays in countries having adopted this Recommendation, and within the limit of validity of the national licence. Radio amateurs holding a temporary licence issued in a foreign country may not benefit from the provisions of this Recommendation.

The minimum requirements for a CEPT Novice Licence will be:

- i) indication that the document is a "CEPT Novice Amateur Licence";
- ii) a declaration according to which the holder is authorised to utilise an amateur radio station in accordance with this Recommendation in countries where the latter applies;
- iii) the name and address of the holder;
- iv) the call sign;
- v) the validity;
- vi) the issuing authority.

A list may be added or provided indicating the administrations applying the Recommendation.

The CEPT Novice Licence permits utilisation of the frequency bands allocated to the Amateur Service and Amateur Satellite Service and authorised for the corresponding novice licence in the country where the amateur station is to be operated.

2 CONDITIONS OF UTILISATION

- 2.1 On request the licence holder shall present his CEPT Novice Licence to the appropriate authorities in the country visited.
- 2.2 The licence holder shall observe the provisions of the ITU Radio Regulations, this Recommendation and the regulations in force in the country visited. Furthermore, any restrictions concerning national and local conditions of a technical nature or regarding the public authorities must be respected. Special attention should be paid to the difference in frequency allocations to the radio amateur services in the three ITU Regions.
- 2.3 When transmitting in the visited country the licence holder must use his national call sign preceded by the call sign prefix of the visited country as indicated in ANNEX 2: and ANNEX 4:. The call sign prefix and the national call sign must be separated by the character "/" (telegraphy) or the word "stroke" (telephony).
- 2.4. The licence holder cannot request protection against harmful interference.

3 EQUIVALENCE BETWEEN THE CEPT NOVICE LICENCE AND NATIONAL NOVICE LICENCES

- 3.1 The equivalence between the CEPT Novice Licence and national novice licences in CEPT countries is given in ANNEX 2:.
- 3.2 The equivalence between the CEPT Novice Licence and national novice licences in non-CEPT countries is given in ANNEX 4:.
